

Neo-Sol[®]

50

Neomycin sulfate soluble powder

Soluble powder for use in the drinking water

- Easy to use
- Intestinal antibiotic
- Broad spectrum aminoglycoside

Composition:

Neo-Sol 50 is a water-soluble antibiotic powder. Each 3.5 ounce packet contains 71.5 grams of neomycin sulfate equivalent to 50 grams neomycin.

Indications/Dose:

- Neo-Sol 50 is for the treatment and control of colibacillosis (bacterial enteritis) caused by *Escherichia coli* susceptible to neomycin sulfate in cattle¹, swine, sheep and goats¹.
- Administer to cattle¹, swine, sheep and goats¹ in divided doses for a maximum of 14 days. Treatment should continue for 24-48 hours beyond remission of disease symptoms.

¹ Do not use in calves to be processed as veal or in animals producing milk for human consumption.
